Gary,

We received the attached data yesterday afternoon. I have updated the spreadsheet to reflect this information.

SDG 53876 – level 2 data received

SDG 54037 – complete prelim received

I also have some unfortunate news to report. The lab notified us yesterday late afternoon that hold times were missed on FT-1002 and VB-620 for total pesticide and total herbicide analysis. I instructed the lab to proceed with analysis. The associated data for these two samples will be qualified as estimated; not rejected. We will not incur any cost for this analysis. The analyses affected is the total analysis; not the TCLP analysis (which is attached as prelim to this email). The results from the TCLP analyses are non-detect for both samples and analyses. Please let me know if you have any questions about the impacted data.

Please note, I will be out of the office this morning and will return after lunch around 1:00.

Thanks,

Kristie
